

grow a healthy business

Saladworks is the original create-your-own, fast-casual salad franchise.

Healthy – USDA reports that American adults are choosing healthier foods such as fruits and vegetables to support a healthier lifestyle. That’s why nearly half of all Millennial and Gen Z consumers buy 3+ entrée salads per week away from home. **Saladworks is on-trend.**

Simple – Our concept is asset-light, equipment-light and easy to operate. No fryers and no hood means less expensive buildout costs for you. Just chop, slice and dice to serve the tastiest create-your-own salads around. **Saladworks is turn-key.**

Accessible – The fast-casual landscape is overbuilt and cluttered with create-your-own burger, sandwich, pizza, Mexican and smoothie concepts. Landlords are looking for healthy concepts like ours. We have the market, venue, format and footprint you want. **Saladworks is available.**
